Skills

React

React Native

Node.js

JavaScript

HTML & CSS

SQL

MongoDB

Visual Basic

Webflow

Firebase Firestore

Python

Languages

English — Professional

Hebrew — Native

Courses

The Complete Web Developer: React and Node.js at Udemy

Python and Django Full Stack Web Developer Bootcamp at Udemy

EXPERIENCE

Lab Technician, HP Indigo, Ness Ziona

Jan 2024 — Present

Developed tools and dashboards for monitoring key performance indicators of new HP printer model, testing the efficiency and conductivity of new sensors.

Web developer freelance

Nov 2023 — Jan 2024

As a freelance web designer and developer, I worked with two different clients to transform ideas into visually stunning and responsive online experiences.

- [Nutritionist Portfolio](#) - Using React & Firebase, I built my nutritionist client an onboarding [platform](#) and dashboard for collecting and managing user data.
- [Mortgage Calculator](#) - Designed a mortgage calculator for Ynow, a personal finance business. Used JavaScript and Webflow.

Frontend Developer, Beecomm, Tel Aviv, Israel

May 2022 — Sept 2023

- Designed and developed web applications using React and Node.js
- Engaged in problem-solving, maintenance, and the incorporation of new features to meet client-specific requirements
- Utilized Visual Basic and SQL in conjunction with the Microsoft Access database to ensure efficient data management
- Played a pivotal role in enhancing client satisfaction through active participation in software updates and improvements

Military Service, Israel Defense Forces

March 2013 — March 2016

Served three years in the IDF as a combat soldier in NAHAL unit, 931 regiment.
