Profile

I hold a B.Sc. in industrial engineering and management, which has equipped me with a unique blend of problem-solving skills and efficiency. What sets me apart is my passion for taking on new challenges. Always eager to explore the creative possibilities that technology offers. I'm a self-learner, creative minded, analytical and a great team player.

Education

B.sc in Industrial Engineering & Management , Afeka Tel Aviv Academic College of Engineering, Tel-Aviv, Israel

2018 – 2022

Courses: Databases and Data-Warehouse Systems, Object-Oriented Programming and Design, Web Programming with UX-UI, Data Engineering.

Specialization: Information Systems Analysis, Machine Learning.

Aviv High School, Ra'anana, Israel

2010 – 2012

Full matriculation: 10 units in Computer Science, 5 units in Physics, 5 units in Math and English.

Employment History

Web developer freelance , Tel-Aviv, Israel

AUGUST 2023 – PRESENT

As a freelance web designer and developer, I utilize a diverse set of skills and methods to craft functional web pages. My toolkit includes a mastery of Webflow platform, allowing me to transform ideas into visually stunning and responsive online experiences, among other skills and methods.

Programmer , Beecomm, Tel-Aviv, Israel

MAY 2022 – AUGUST 2023

- Designed and developed web applications using React and Node.js.
- Engaged in problem-solving, maintenance, and the incorporation of new features to meet client-specific requirements.
- Utilized Visual Basic and SQL in conjunction with the Microsoft Access database to ensure efficient data management.
- Played a pivotal role in enhancing client satisfaction through active participation in software updates and improvements.

Military Service, IDF

MARCH 2013 – MARCH 2016

Served three years in the IDF as a combat soldier in NAHAL unit, 931 regiment.

Self Projects

Nutritionist Portfolio - A comprehensive platform designed to empower my nutritionist client and improve his connection with clients on their wellness journey.

Face Detection App – This full-stack web project was a thrilling challenge for me, as it introduced new technologies into my skillset. It combines React and Node.js with MongoDB, using the Clarifai API to detect faces in images.
